

# What are some brands of core storage switches

## Overview

---

In terms of models, Cisco's Catalyst 9600 series and Nexus 9000 series and Huawei's CloudEngine 16800 and S12700 series are excellent core switch products suitable for deployment in medium- to large-sized enterprises, capable of delivering high performance, reliability, and. Most guides to the "best enterprise switches" offer a predictable, high-level list of vendors. The real challenge is choosing the right flagship product series—the one that delivers the. The following models are common types: Managed: Let you configure settings like VLANs, QoS, and security on each port. Data center switches are Ethernet switches installed in a data center environment intended to provide connectivity for endpoints, including servers, firewalls, and Layer 4 through Layer 7.
