

What is SC in fiber optic communication

Overview

SC fiber connectors, or Subscriber Connectors, are widely used in telecom and networking for their strong performance and easy handling. They're known for a secure push-pull connection that's quick to insert and remove. While the small size of fibre optic connectors does not mean they play a minor role, the type of connector you use affects the overall efficiency of light transmission across the fibre network. 25 mm ceramic ferrule—half the diameter of legacy SC/ST/FC ferrules—so LC enables significantly higher port density and. 1 dB Return Loss: ≥ 50 dB (APC connectors ≥ 60 dB) Durability: $\geq 1,000$ mating cycles without. Understanding fiber connector types—SC/APC, SC/PC, LC/UPC, LC/APC, ST/PC, FC/PC, and FC/APC—is essential for selecting the right interface for your application.
