

What kind of junction box has no jumper

Overview

These junction boxes are in fiberglass-filled polyamide (PA66) in compliance with EN 61386-23 and self-extinguished according to UL94 standards. Thor specializes in R&D and overseas technical support for high-voltage cable junction boxes and other power distribution equipment. These boxes protect wire connections, organize electrical systems, and vary in size. A junction box is made of metal (aluminum, 304/316L stainless steel), plastic derivatives, or composite materials.

What kind of junction box has no jumper

Junction box

Junction boxes form an integral part of a circuit protection system where circuit integrity has to be provided, as for emergency lighting or emergency power lines,

Junction Box Types: Choose the Right One for Your
