

What router should I use for a 300Mbps fiber optic connection from China Mobile

Overview

Our top overall pick is the Netgear Nighthawk RS700S, a Wi-Fi 7 router built for multi-gig fiber plans that handles up to 200 devices across 3,500 square feet. For budget-conscious households, the TP-Link Archer AX55 delivers reliable Wi-Fi 6 performance without the premium price. Here are a few routers that would be well-suited for a 300Mbps internet connection: I worked with the Cybernews research team to review and compare different routers and give. However, the market is flooded with countless options, making the selection quite overwhelming.
