

Why can't my router connect to fiber optic internet

Overview

Despite their robustness, fiber networks can fail due to: Physical Damage : Cuts, bends, or contamination in fiber cables or connectors. This morning my ISP upgraded my Internet connection from a standard coaxial cable and Cisco modem to a fiber optic cable and Hitron modem Model Name NOVA-2004. This guide will walk you through diagnosing and resolving common fiber network issues efficiently. However, setting up a fiber optic connection to your router can seem daunting if you're unfamiliar with the process.
